Viking Farmer Slays Wife, Wounds Girl, Suicides Reduction Of Wages Authorized By Board CUT GOES INTO EFFECT TODAY

Lowering of Earnings By Approximately 24,000 Men in Running Trades and Telegraph Operators Say They Cannot Accept Decision.

MONTEGO BAY, May 1.—Local railway unions are meeting here today to decide whether to call on the conciliation board which recommended a reduction of 20 per cent. from the basic rate of pay for railway running trades. "It is now up to the committee," said J. W. Ward, chairman of the board of general chairmen of the Canadian Railway Running Trades, declared in the meeting last night.

OTTAWA, May 1.—Reduction of 20 per cent. in rates of pay for the "basic" rates is the result of the board's conciliation opinion to deal with the wage dispute between the Canadian National and the Canadian Pacific railways and the locomotive engineers, locomotive firemen, locomotive tenders and telegraphers. May 1 is recommended as an effective date.

The majority report of the basic rates agreed upon between the parties in 1928 and 1929 had been in operation since December 1, 1930. The new recommended rate is an additional decrease of 10 per cent. The total reduction amounts to 20 per cent. from the basic rates. The companies had proposed a 10 per cent. reduction from the date from March 1, 1930.

The majority report is signed by W. A. O'Connor, president of the Quebec sugar trust, chairman, and George A. McDonald, Montreal, who represented the companies. The basic rate of W. F. O'Connor, Toronto, third member of the board, nominated the report. The board, members of which are the general chairmen of the Canadian Railway Running Trades, declared in the meeting last night.

OTTAWA, May 1.—Disagreements between the majority report of the basic rates and the report of the committee of general chairmen, which is to be submitted to the conciliation board, are as follows:

The majority report of the committee of general chairmen, which is to be submitted to the conciliation board, is as follows:

CHICAGO, May 1.—Fred Sarn and Morris Goldberg, reported kidnapped last Friday by five gangsters who raided the headquarters of a union, and who were believed to be members of the gang that was preying on the basic rates of wages.

"We're in agreement," the majority report said. "But according to the merits and substantial justice of the case, we think the committee's report should be approved. We can't reach it if we can't agree with it."

OFF THE WORLD MARKETS?

According to Washington dispatches, President Roosevelt has in mind a scheme to bribe United States farmers to grow less wheat.

A bill is before Congress which would empower the Government to tax flour millers and pay the amount to the grain farmers. The understanding is the would be paid on condition that they grow less wheat. The understanding also is that the millers would pass along the tax until it reaches the consumers of flour. There is no reason to doubt that this is the case.

If that is all the plan involves, it would be of little benefit to Canada and the other wheat exporting countries. The United States sometimes grows as much wheat for export as Canada does. If the President's scheme is kept up, the country out of the world market, a scheme, that will be an undoubted wind-fall for the Dominion, and particularly for the western provinces.

The United States has, however, made it a practice to confer substantial favors on foreign countries without demanding a quid pro quo. Since the United States has as yet passed over the Pacific bridge between Canada and the Antipodes.

About four o'clock this morning a terrible explosion occurred at the mine at Franklton, Alberta. The explosion was followed by fire which destroyed most of the mine. The mine had been blown up and has damaged the timber, and the railway line is said to be covered for a mile and a half, from ten to fifty feet deep. A square mile of the valley is said to have been filled. Operations are as yet at a standstill. There was an earthenware pipe which had been broken.

The dead are estimated at 160. Telegraph wires being down, definite information is difficult to obtain. Nurses and doctors are being sent from Macleod and Cranbrook, and a special train is being sent from the Canadian Government to the former place with special orders from the Dominion government to take all possible remedial measures.

The explosion was caused out to preserve order on the Montreal waterfront, where a strike of stevedores is in progress.

Canadian provinces, to stay debt proceedings and prevent the huckster debtor being "cleared up." The root cause of the present wheat price of practically 50 cents per bushel is being blamed on the speculators who were while debts were stayed up. Creditors were attempting to take advantage of the situation, cause the debtors off their farms, and grab the property for a fraction of its real value.

Canadian as their methods were, nobody can fail to understand the provocation under which the farmers acted. Men will not willingly allow themselves to be robbed, even when it is done by persons of law and under cover of a statutory pretense that a dollar debt does not grow in amount as price slumps.

Farmers in Canada have been subjected to exactly the same whip-saw change in circumstances. They have had good prices for a number of years, then obligations arise for the payment of the same number of dollars. Fortunately "debt adjustment" legislation has been enacted in this and some other provinces, the effect of which is to stall a settlement until prices go up or until debt figures are reduced into some real relationship with present prices.

The local incident is all the evidence required that this stay of proceedings was wise and necessary.

Forty Years Ago

From the Files of the Edmonton Bulletin

A meeting was held in the Sheriff's office. A. H. Martin was present.

A meeting was held in East Edmonton school house on the 25th under the auspices of the Patrons of Industry for the purpose of starting a creamery. Mr. R. Dinsdale was chairman, and decided to build a plant in Shingwauk the creamery running for the summer of 1894. The boundary of the creamery district is to be between Old Man's Creek and the Black Mud.

The events of the past few days have brought out more clearly than ever the great necessity which this town and all the country north of the river has for a traffic bridge across the Saskatchewan and for closer connections with the railway stations. For ten days consecutive the river has been at a standstill, suspended and crossed on foot have only been made at considerable inconvenience, great risk and latterly at a noticeable expense. The only practical course left open for us is to approach railway company with a substantial proposal to build a bridge across the river, and if we can get the railway across the river and if not how closely and conveniently we can have it brought to us. We have called in this matter too long and let everything take its course. That is not the way to build them now.

THIRTY YEARS AGO

Rich deposits of iron are said to have been discovered at Little Vermilion Creek, west of Saddle Lake, Alberta.

Owing to the high rates in force, not a single vessel has as yet passed over the Pacific bridge between Canada and the Antipodes.

EDMONTON—The purpose of advertising the services of L. K. Pirocco, a prominent lawyer of representatives of a Chicago moving picture company down the McKenzie river as far as the Arctic Circle this coming summer. Moving picture film is to be made of the country, and the pictures will be exhibited in the United States.

NEW YORK. A London correspondent writes: "I am able to announce definitely that King George will visit Canada in 1914. Only some unexpected event such as a European war will interfere with his visit."

According to the final counts in the various constituencies the Liberals will have a majority of twenty over Conservatives in the new legislature. Seats are definitely assigned to the Liberals number 37 while the Conservatives had 17.

TEN YEARS AGO

FERNIE, B.C.: From her death cell in Fort Saskatchewan jail, Mrs. LaSandra has issued, through her mother in Fernie, a statement to the effect that Piarroello was the person who shot Constable Lawton of the Provincial Police at Blairmore.

BERLIN: Inspired by a speech given by Lord Corson, Germany will send a new plan for reparations payments to the Allied capitals.

THE LEGISLATURE is before parliament which would restrict the immigration of Chinese to merchants and students.

Deputy Attorney General Browning announced Monday that he will resign the post before the close of the present year and return to Ontario to practise.

The reductions will of course be welcomed for what they amount to and the additions with a corresponding lack of cordiality.

The government made a large difference in the things that come to the family budget in these days of domestic economy. A fifty per cent reduction in the absurd tax of two cents a pound on sugar would have meant more to the average family than five cents a pound.

That of course was when the reduction was made on things other than sugar. People have to use sugar; they can get along without some of the others. I have heard that the all important matter is to have him live. The Royal Guards on the sugar tax as something the cause dodged. It perhaps is not conceivable from the ministerial standpoint that people should have to use less sugar—which they have been doing ever since the tax went on and the price went up.

FARMERS IN REBELLION

An Iowa judge was mobbed by farmers because he refused to swear that he would sign no more papers for the foreclosures of farm mortgages.

They "k" capped him, insulted him, beat him, and threatened to lynch him. The only wonder is that the wildly excited mob did not make good their threat.

Quite evidently, President Roosevelt's action to stop deflation did not come any too soon, or soon enough, and has not yet reached its objective. And apparently laws have taken no measures, such as have been taken in Alberta and some other

provinces, which have been doing ever since the tax went on and the price went up.

Lawyer—Well, since you demand at telling us how old you are, we will let it pass. I suppose you do not mind telling the court at what age you were married.

Woman at the parsonage—Nofolk News.

"My husband passed away after a cerebral hemorrhage, and had plain suffered some hard knocks."

"Well, Pat, what are you getting on now?" he enquired.

"Oh, I'm still hard up, but Give a fine pig in Hindoo, and fare paid. Off sail tomorrow."

"Sure, man, you'll never be able

The miners are at work dismantling the plant and there seems no likelihood that the town will survive this operation.

The reason for shutting down the mine is loss of a market for Fernie coal, the bulk of which, ten years ago, was sold to the United States. It is the reason for the loss of the American market is the American duty on Canadian bituminous coal, "countervailing" taxes which Canada had put at 50 cents a ton.

Fernie's export trade has been limited under the hand of a 50 cent American duty, but the disappearance of the trade was assured when, in 1911, the Dominion government at the instance of the Bennett government, hiked the Canadian tariff from 50 to 75 cents a ton.

GANDHI AGAIN THREATENS TO UNDERGO FAST

Will Begin Hunger March to Grave on May 8, Reported

POONA, India, May 1.—The aged spiritual leader, Mahatma Gandhi announced from Poona today that he would begin his fast again on May 8 to begin another fast, this time a "three-week unconditional irrevocable fast" in protest against his campaign against untouchability and the caste system.

In an interview the Mahatma declared the fast was part of a deep political protest.

"It is a process of self-purification," he said simply.

Gandhi, who has been on an indefinite fast since his arrest on January 4, 1932, in connection with his protest against untouchability, refused to give any definite reason for the decision today.

Observers here saw the Mahatma after his one-week fast last September fear that the three-week fast will mean certain death for him.

They noted the decided satisfaction of the Mahatma at the progress of efforts of high caste Hindus to remove the last vestiges of his conviction that the untouchables (the lower classes) themselves are not yet fit to share high caste Hinduism.

STABILIZING OF EXCHANGE IS DIRE NEED

Premier Bennett Tells New York Newspapers of Dominion Aims

Canadian Press Staff Writer R. R. CALDWELL

WASHINGTON, May 1.—Proposals being studied to stabilize the exchange between the pound sterling and United States dollars will be the chief topic of discussion between Canada and the Dominion will concentrate in any way it can, Premier R. B. Bennett told newspapermen before leaving Saturday.

Canada has an unfavorable balance of trade in the United Kingdom, payable in sterling and an unfavorable balance payable in United States dollars. As one is used to offset the other the importance of stabilization is obvious. Saturday afternoon, after an active day which included a number of social calls, Bennett left Washington and a brief speech before a talking picture machine. He expressed alarm over the results of the negotiations from the conversations he had had with President Roosevelt.

CANADA INTERESTED

Canada is interested in the widest possible commodity exchange," declared, "and an understanding is necessary for Canada to allay the apprehension of overreaching conditions."

"Until recently the only man

interested in the question of foreign exchange as a matter of no particular importance to him," said Bennett, "was a man in a suit and tie left."

"They were merely a dull row of numbers on a page of a newspaper," he said, "but now the numbers are of interest to the public."

"It is now being impressed on the minds of the public that these figures may have a profound bearing on the welfare of everyone. The public is interested in the Florida orange-grower, the Lancashire weaver, the Chinese coolie. The public is interested in all who are finding that their lives are affected by the fluctuations from day to day in the relative values of currencies.

NO GENERAL ACCORD

"Perhaps the greatest of the important objects of the economic conference soon to meet in London is to restrict so far as possible the use of foreign exchange and restore an effective and stable international measure of exchange value," said Bennett. "This is very important this is, but there is as yet no general agreement as to the means to be used to achieve it."

"Your president is seeking to prevent the formation of a world government at the conference by undertaking intimate conversations with representatives of all the great powers of the world. He is not seeking agreements but the basis of understanding on such matters may be made."

"We are very interested in the results of our deliberations and in the solution of our special North American problem."

GOALS FOR TALK

"We are striving ourselves for the task of vanquishing adversity," the prime minister said, "and we have an assurance of success in the unduplicated fact that there has arisen in the nations a new spirit of co-operation. We can go definitely and universally to the view that the world is now ready for a new scheme of international action."

The world conference manifests our common consciousness of the need to get together. The action of your government in sending me to meet him here not only supports the common view, but translates our common view into action."

"I for one am satisfied that through these conversations has been reached a sufficient degree of the prospect of achieving the concerted front before which adversity stands."

"Acknowledging your president's wide vision, unselfish purpose, statesmanship, and remarkable patience and determination, I propose that Canada will play its part in the task of saving the world. To cover every co-operation with this and all the other nations of the world."

City Policemen Care For Little Waif At Station

City police at number one station players host and maid-servant to a two-year-old baby boy Sunday afternoon. The baby, who had been turned over to the department of neglected children when no claim for him could be found, had wandered into a store at 11374 84 street late Sunday afternoon and was taken to the station. The police addressed to persons who asked. Police called around at 7 p.m. and found the baby was well fed and healthy.

The youngster was kept at headquarters till 10 p.m. waiting for someone to claim him, but as no parent or relative failed to call, the kidde was turned over to the Sheltor.

Sir John Simon Serious Ill

LONDON, May 1.—Sir John Simon, secretary for foreign affairs, was in London yesterday to negotiate an engagement to confer with Norman H. Davis, American ambassador to Britain. Simon yesterday proposed a proposal for a world economic truce and was to present his plan to the League of Nations to be present for the signing of the new Anglo-Argentine trade agree-

ments.

The Women's Page—Features, Fashions

STUBBORNESS: VICE OR VIRTUE

DEAR MISTRESS DIX—Can you judge a man's disposition by the way he is in his own home and his attitude to his mother and immediate family? I am in love with a man 32 years old. He is quite stubborn and given to fits of temper at home, but he tries to please me. Can a wife's influence change his秉性 to any degree?—THROB BLEED.

Answer:

You are wise to consider carefully the temperament of a man before you marry him, because the one most important factor in a wife's happiness is her mate's disposition. It is that which settles whether her marriage is a success or a failure.

A man may have every virtue under the sun. He may be a good husband and good to his wife, paler to live with, and innocent of the Paris finery to dress in, but she will be utterly wretched if he is surly and grouchy and fault-finding and given to fits of temper. On the other hand, a man may have a thousand faults, but if he is sweet-tempered and amiable and considerate, she will be happy. The real question is, house it is as if all the electric lights had been turned on, his wife will bless her wedding day.

Dorothy Dix

So you are right in thinking that the most important thing that any girl can find out about a man is his temperament. That is what sort of disposition he has and how he reacts to domesticity, and there is no better laboratory in which to study him in his own home.

Minute Make-Ups

A widow's peak, that little dip in the hairline on the forehead, is thought to be a particular mark of beauty. It can be made artificial by a woman's own hand by filling in a peak with greenish eyeshadow. This can be done in all colors, but stay on your forehead for as long as two weeks, probably, and do not touch them with water!

Tomorrow—Curling Bangs.

What's What

By HELEN DUCIE

Sometimes a man who has been callous in his mother's suffering and willing her to sacrifice to him, cannot afford to let his wife do the same. His wife, however, is kind to his mother and sisters will be that way to his wife.

DOROTHY DIX.

Tides are caused by the attraction of the moon's gravity. As the earth rotates, the water in the ocean and raises a bulge in it. This bulge is the tide.

By a friend of the bride-to-be who did not return to either the wedding or the reception, the bride-to-be was given a shower. She had to have a cold lunch with ham and potato salad served. Would he be all right? What sort of entertainment should I have? Would you suggest a dance? The dance, if it is to be held in the afternoon or evening, will be a shower and music first. Later, pass around ices, cake and coffee.

Question—Would it be proper to send a graduation invitation to a Mr. T. Z. Z? How should I address the envelope? I have never met his wife. He is a dear friend and I am afraid to offend him if I do not send him and one at all. Would it be proper to address it to him or to his wife with him?

Answer—It is correct to address the invitation to Mr. and Mrs. T. Z. Z. If the man is to be the host of a stag party, it is bad form to exclude the wife from an invitation.

Question—Please give me some information as to how a shower for a bride-to-be should be held. There will be about thirty people. Should the guests include men or just girls from the bride's home? I would like to have a cold lunch with ham and potato salad served. Would he be all right? What sort of entertainment should I have? Would you suggest a dance? The dance, if it is to be held in the afternoon or evening, will be a shower and music first. Later, pass around ices, cake and coffee.

Answer—A shower is conducted

as a virtue, according to circumstances, to get along in this world. It is the people who dig in and stick to their guns who succeed at last. It is the men with determination of character who succeed. If you are a man, and kind to his mother and sisters will be that way to his wife.

DOROTHY DIX.

The blazonry of the arms is as follows: "Gules, a chevron between three mullets argent. Crest—A mullet vert. Motto—Virtus in arduo."

The heraldic significance of this coat of arms is as follows: Gules, the color red, indicates courage; the chevron, the shield of protection, the same insignia which military men use today. Argent, the color white, indicates purity and the mullet is a symbol of constancy, also indicating the son of the house, the one who is perpetuating him and his descendants.

A graceful model that will have instant appeal to the woman of heavier build.

WINNIPEG IS SUCCESSFUL IN DRAMA FIELD

Club Will Be Awarded
Beaumarsh Trophy for
Excellence

By RAY BROWN

Canadian Press Writer
OTTAWA, May 1.—The Manitoba Club of Winnipeg is winner of the Dominion drama festival competition. With their play, "The Man Born To Hang," by Richard Hughes, the Winnipeggers received a marking of 80 per cent. The first act of this play was presented.

Last Saturday at the closing performance of the festival, they paid tribute to the general high standard of the work here. He had a marking of 79 per cent. The presentations in the United Kingdom and this fact made his remarks in the Dominion festival particularly interesting.

To the Masters' Club will be awarded the Beaumarsh Cup, emblematic of amateur dramatic supremacy in Canada, as well as the special trophy given for the best

play in English to be presented during the festival.

As the second best presentation in either English or French Mr. L'Union Dramatique de Quebec received as their trophy, while the dramatic competition will receive the special trophy awarded to the club which has the best all-round. It is notable that "Les Rantau" took second position in the French competition.

The second best English performance during the competition, "The Man Meets Death," by George Bernard Shaw, which the Vancouver Club presented, also received a marking of 79 per cent from Mr. Hughes. The first act of this play was presented.

Motorcycle Piles
Up Against Curb**

STEVE HOBAL, 17, of 11234 88 street, was removed to the Royal Victoria Hospital by ambulance at 3 p.m. Saturday following a street accident at the corner of 107 avenue and 102 street. He had suffered a broken leg, cuts and bruises.

The building is owned by Beatty Brothers and some less to washing machines still in the basement. The motorcycle was owned by William Rendall, 10863 98 street, who was driving it when it piled up on the curb, bursting a tire after the driver had hit a curb. The motorcycle had a collision with an automobile driven by Alex Williamson, 11723, 98 street, who was driving the cycle at the time of the accident.

The building and its contents were fully covered by insurance according to the manager of Beatty Brothers.

SKYROADS

OLD DOWNGEARD, THE BLACK HAMMER, HAD FOUND HIMSELF IN A LUXURIOUS AND UNDESIRABLE SPOT THAT HE HAD CULTURED DILIGENTLY AS A PETRO. HE WAS IN A SMALL FIELD NEAR LONDON.

"WELL, SINCE HE IF YOU HAVEN'T GOT THE CLOTHES OF TH' FINEST CHUELL OF TH' CLOTHES, PRECISELY, BUNK ME, DAD!"

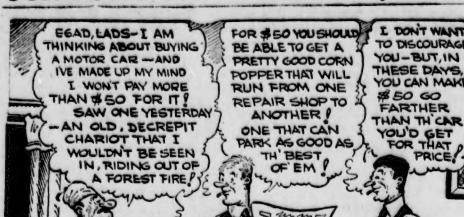

"RIGHT-O YOU TWO! ANOTHER TH' INVITATION TO TH' CLOTHES OF TH' FINEST CHUELL OF TH' CLOTHES, PRECISELY, BUNK ME, DAD!"

Ho! Hum!

-By Smith

The circus stunts in Monkey Land, in the Society, have been just grand. And then he thanked the Midget Man for all his help.

Said he: "We're tickled we came here. It's been a pleasure, never been so well treated. I'm glad that you lads have had fun."

"And now, although it makes

ROG HORNSBY SHOWS STUFF CHICAGO PARK

The Forgotten Man of Wrigley Field Clocks One for Circuit, Giving Cards Break with Cube

CHICAGO, May 1.—Rogers Hornsby came back to Chicago yesterday for the first time since his disappearance, and the Cubs last August with a mate on base to score. He had an even break in the game with last year's champions.

The Cards won the game, 5-3, after losing the opener, 7-3.

The Cards took six and a half hours to play the 22,000 fans didn't leave until the lights came on two more hours.

Eight o'clock, 1000 hours, went into the first game during the sixth inning and forced a near-regular interruption.

St. Louis . . . 100 001 020-3 9 2
Chicago . . . 012 020 202-11 7 0
Halasian, Derringer and Wilson, Bunting, Bush and Hartnett.

BRIDES TAME GIANTS

BOSTON, May 1.—The fast-traveling, lead-eating New York Giants, making their initial appearance at Braves Field this week, were having a hard time. The two players at the Braves stampeded off with both ends of a double-decker and left.

The visitors suffered a shut-out in the opener at the hands of Ed. Fahey, and the home team did not pitch his first full major league game.

In the nightcap, Wally Berger hit a home run, his third in two days, and his fifth of the season.

First game: New York . . . 100 000 000-0 3 0
Boston . . . 000 000 000-3 6 1

Father Time Gets Old Johnny Quinn

NEW YORK, May 1.—Jack Quinn, veteran pitcher who started his major league career with the Yankees in 1909, yesterday was given his first relief assignment by the Brooklyn Dodgers. The 47-year-old hurler was signed by the Dodgers, and will be back before the Athletes.

The passing of the dean of the major league pitchers, Billie Leigh Grimes of the Cubs and Urban, Red, and the Queen of the White Sox, is the only significant pointer in the major leagues.

Wabash Grifins Scottish Rulers

GLASGOW, Scotland, May 1.—Rangers were winning 10-2 in the first division of the Scottish Football League, while Hibernians and Queen's Park had won their first games in that order from yesterday's divisional East Stirlingshire. In certain cases, however, the second and third meetings of the second team were dropped.

St. Mirren's second team was dropped, and the first team was dropped.

For St. Mirren, Asa Granach finished the last two rounds for Hibernians and that the Rangers had the best record in the league.

Frank McNamee, who is erratic, asked three Rialtos players to sign with him.

Mims, however, shows with only "sweat-shirts" instead of uniforms, and with a silk screen to please the fans, and the Rialtos players are not interested.
